

§ 153A-357. Permits.

(a) Except as provided in subsection (a2) of this section, no person may commence or proceed with any of the following without first securing from the inspection department with jurisdiction over the site of the work each permit required by the State Building Code and any other State or local law or local ordinance or regulation applicable to the work:

- (1) The construction, reconstruction, alteration, repair, movement to another site, removal, or demolition of any building.
- (2) The installation, extension, or general repair of any plumbing system except that in any one- or two-family dwelling unit a permit shall not be required for the connection of a water heater that is being replaced, provided that the work is performed by a person licensed under G.S. 87-21, who personally examines the work at completion and ensures that a leak test has been performed on the gas piping, and provided the energy use rate or thermal input is not greater than that of the water heater which is being replaced, there is no change in fuel, energy source, location, capacity, or routing or sizing of venting and piping, and the replacement is installed in accordance with the current edition of the State Building Code.
- (3) The installation, extension, alteration, or general repair of any heating or cooling equipment system.
- (4) The installation, extension, alteration, or general repair of any electrical wiring, devices, appliances, or equipment except that in any one- or two-family dwelling unit a permit shall not be required for repair or replacement of electrical lighting fixtures or devices, such as receptacles and lighting switches, or for the connection of an existing branch circuit to an electric water heater that is being replaced, provided that all of the following requirements are met:
 - a. With respect to electric water heaters, the replacement water heater is placed in the same location and is of the same or less capacity and electrical rating as the original.
 - b. With respect to electrical lighting fixtures and devices, the replacement is with a fixture or device having the same voltage and the same or less amperage.
 - c. The work is performed by a person licensed under G.S. 87-43.
 - d. The repair or replacement installation meets the current edition of the State Building Code, including the State Electrical Code. However, a permit is not required for the installation, maintenance, or replacement of any load control device or equipment by an electric power supplier, as defined in G.S. 62-133.8, or an electrical contractor contracted by the electric power supplier, so long as the work is subject

to supervision by an electrical contractor licensed under Article 4 of Chapter 87 of the General Statutes. The electric power supplier shall provide such installation, maintenance, or replacement in accordance with (i) an activity or program ordered, authorized, or approved by the North Carolina Utilities Commission pursuant to G.S. 62-133.8 or G.S. 62-133.9 or (ii) a similar program undertaken by a municipal electric service provider, whether the installation, modification, or replacement is made before or after the point of delivery of electric service to the customer. The exemption under this subdivision applies to all existing installations.

(a1) A permit shall be in writing and shall contain a provision that the work done shall comply with the State Building Code and all other applicable State and local laws and local ordinances and regulations. Nothing in this section shall require a county to review and approve residential building plans submitted to the county pursuant to Section R-110 of Volume VII of the North Carolina State Building Code; provided that the county may review and approve such residential building plans as it deems necessary. No permit may be issued unless the plans and specifications are identified by the name and address of the author thereof; and if the General Statutes of North Carolina require that plans for certain types of work be prepared only by a licensed architect or licensed engineer, no permit may be issued unless the plans and specifications bear the North Carolina seal of a licensed architect or of a licensed engineer. If a provision of the General Statutes of North Carolina or of any ordinance requires that work be done by a licensed specialty contractor of any kind, no permit for the work may be issued unless the work is to be performed by such a duly licensed contractor.

(a2) No permit issued under Articles 9 or 9C of G.S. Chapter 143 shall be required for any construction, installation, repair, replacement, or alteration performed in accordance with the current edition of the North Carolina State Building Code and costing fifteen thousand dollars (\$15,000) or less in any single-family residence or farm building unless the work involves any of the following:

- (1) The addition, repair or replacement of load bearing structures. However, no permit is required for replacements of windows, doors, exterior siding, or the pickets, railings, stair treads, and decking of porches and exterior decks.
- (2) The addition or change in the design of plumbing. However, no permit is required for replacements otherwise meeting the requirements of this subsection that do not change size or capacity.
- (3) The addition, replacement or change in the design of heating, air conditioning, or electrical wiring, devices, appliances, or equipment, other than like-kind replacement of electrical devices and lighting fixtures.

(4) The use of materials not permitted by the North Carolina Residential Code for One- and Two-Family Dwellings.

(5) The addition (excluding replacement) of roofing.

(a3) A county shall not require more than one permit for the complete installation or replacement of any natural gas, propane gas, or electrical appliance on an existing structure when the installation or replacement is performed by a person licensed under G.S. 87-21 or G.S. 87-43. The cost of the permit for such work shall not exceed the cost of any one individual trade permit issued by that county, nor shall the county increase the costs of any fees to offset the loss of revenue caused by this provision.

(b) No permit shall be issued pursuant to subsection (a) for any land-disturbing activity, as defined in G.S. 113A-52(6), for any activity covered by G.S. 113A-57, unless an erosion and sedimentation control plan has been approved by the Sedimentation Pollution Control Commission pursuant to G.S. 113A-54(d)(4) or by a local government pursuant to G.S. 113A-61 for the site of the activity or a tract of land including the site of the activity.

(c) (1) A county may by ordinance provide that a permit may not be issued under subsection (a) of this section to a person who owes delinquent property taxes, determined under G.S. 105-360, on property owned by the person. Such ordinance may provide that a building permit may be issued to a person protesting the assessment or collection of property taxes.

(2) This subsection applies to Alexander, Alleghany, Anson, Bertie, Catawba, Chowan, Currituck, Davie, Gates, Greene, Lenoir, Lincoln, Iredell, Sampson, Stokes, Surry, Tyrrell, Wayne, and Yadkin Counties only.

(d) Repealed by Session Laws 2014-115, s. 15(a), effective August 11, 2014.

(e) **(Effective until July 1, 2017)** No permit shall be issued pursuant to subdivision (1) of subsection (a) of this section where the cost of the work is thirty thousand dollars (\$30,000) or more, other than for improvements to an existing single-family residential dwelling unit as defined in G.S. 87-15.5(7) that the owner occupies as a residence, or for the addition of an accessory building or accessory structure as defined in the North Carolina Uniform Residential Building Code, the use of which is incidental to that residential dwelling unit, unless the name, physical and mailing address, telephone number, facsimile number, and electronic mail address of the lien agent designated by the owner pursuant to G.S. 44A-11.1(a) is conspicuously set forth in the permit or in an attachment thereto. The building permit may contain the lien agent's electronic mail address. The lien agent information for each permit issued pursuant to this subsection shall be maintained by the inspection department in the same manner and in the same location in which it maintains its record of building permits issued.

(e) **(Effective July 1, 2017)** No permit shall be issued pursuant to subdivision (1) of subsection (a) of this section where the cost of the work is thirty thousand dollars (\$30,000) or more, other than for improvements to an existing single-family residential dwelling unit as defined in G.S. 87-15.5(7) that the owner occupies as a residence, or for the addition of an accessory building or accessory structure as defined in the North Carolina Uniform Residential Building Code, the use of which is incidental to that residential dwelling unit, unless the name, physical and mailing address, telephone number, facsimile number, and electronic mail address of the lien agent designated by the owner pursuant to G.S. 44A-11.1(a) is conspicuously set forth in the permit or in an attachment thereto. The building permit may contain the lien agent's electronic mail address. The lien agent information for each permit issued pursuant to this subsection shall be maintained by the inspection department in the same manner and in the same location in which it maintains its record of building permits issued. Where the improvements to a real property leasehold are limited to the purchase, transportation, and setup of a manufactured home, as defined in G.S. 143-143.9(6), for which there is a current certificate of title, the purchase price of the manufactured home shall be excluded in determining whether the cost of the work is thirty thousand dollars (\$30,000) or more.

(f) No county may withhold issuing a building permit or certificate of occupancy that otherwise would be eligible to be issued under this section to compel, with respect to another property or parcel, completion of work for a separate permit or compliance with land use regulations under this Article unless otherwise authorized by law or unless the county reasonably determines the existence of a public safety issue directly related to the issuance of a building permit or certificate of occupancy.

(g) Violation of this section constitutes a Class 1 misdemeanor. (1969, c. 1066, s. 1; 1973, c. 822, s. 1; 1981, c. 677, s. 2; 1983, c. 377, s. 2; c. 614, s. 2; 1987 (Reg. Sess., 1988), c. 1000, s. 1; 1993, c. 539, s. 1065; 1994, Ex. Sess., c. 24, s. 14(c); 1993 (Reg. Sess., 1994), c. 741, s. 1; 2002-165, s. 2.19; 2005-433, s. 3; 2006-150, s. 2; 2007-58, s. 1; 2008-198, s. 8(c); 2009-117, s. 1; 2009-532, s. 2; 2010-30, s. 3; 2012-23, s. 2; 2012-158, s. 6; 2013-58, s. 2; 2013-117, s. 6; 2013-160, s. 1; 2014-115, s. 15(a); 2015-145, s. 4.2(a), (b); 2015-187, s. 2(b); 2016-59, s. 8; 2016-113, s. 13(b).)
