The Building Official or the Building Official's duly authorized representative shall act as secretary to the Commission and Boards of Appeal and keep an accurate and permanent record of all proceedings before the Commission and Boards of Appeal. All records and reports of the Department shall be public records.

Sec. 4-1-8. Appeals and authority of Board of Appeals.

- (a) Any person aggrieved by any decision or order of the Building Official or the Building Official's authorized representative or any chief inspector relating to the enforcement or interpretation of this Code or any minor code or major code may appeal such decision or order to the appropriate Board of Appeals. Every such appeal shall be perfected within ten (10) calendar days of the date of the decision or order appealed from by filing with the Building Official in duplicate a written appeal upon a form to be provided by the Department and the payment of an appeal fee. The appeal shall state the decision or order being appealed. The Building Official shall upon receipt thereof transmit to the appropriate Board the written appeal and all related Department records.
- (b) A perfected appeal shall not stay any action or proceedings in connection with the decision or order appealed from, unless and until the Building Official shall certify in writing to the appropriate Board that performance of the work in violation or contrary to the order or decision would not increase the hazard to the health or safety of persons or property. In that event, all actions and proceedings in connection with the decision or order shall be stayed until ordered otherwise by the Board or a court of competent jurisdiction. Any work performed in violation of or contrary to the decision or order appealed from shall be removed or corrected if the Board affirms such decision or order. The fact that such work continued after the issuance of the order or decision and pending appeal shall not be considered by the Board as a mitigating or extenuating circumstance.

-
- (c) The Board shall set a time and place for a hearing on the appeal which shall not be more than thirty (30) days after perfection of the appeal. Notice of the hearing shall be given by the Building Official to the appellant by first class mail addressed to the appellant at the address set forth in the appeal. The hearing shall be open to the public, and all interested persons shall be entitled to be heard. The Board by majority vote of all of its members may sustain, modify or reverse any appealed decision or order.
 - (d) The Department, the Commission, the appellant and any other person aggrieved by the order or decision of the Board may seek review thereof within twenty-eight (28) days after entry of the Board's order or decision pursuant to Rule 106(a)(4), C.R.C.P. in the District Court in and for the County of Pueblo, Colorado. Review shall not be extended further than to determine whether the Board exceeded its jurisdiction or abused its discretion. The decision or order of the Board shall remain in full force and effect pending appeal unless stayed by order of the District Court.
 - (e) A Board of Appeals may grant a variance from the strict terms and provisions of the involved code to avoid extreme hardship, provided such variance can be granted without increasing the hazards to health or safety of persons or property and if such variance will not violate the intent and purpose of such code. Mere inconvenience to a person shall not be grounds for granting a variance.
 - (f) A Board of Appeals is authorized to determine the suitability of alternate materials, methods or installation under that code which the Board is empowered to enforce and to recommend to the Commission new legislation relating to such code or this Chapter.
 - (g) The Building Official shall enforce and execute all orders and decisions of the Boards of Appeals.

However, the Department shall inspect the foundation, installation of utilities and the installation of the factory-built structures to the foundation.

-
- (1) The following notices shall be given to all persons applying for any permit relating to manufactured homes and factory-built structures from any agency of the City:

"In accordance with Federal and Colorado law, this manufactured structure has not been inspected by the Pueblo Regional Building Department and may or may not meet requirements of the Pueblo Building Codes.

"It shall be the obligation of the permit applicant to forward this notice to the owner of the manufactured home or factory-built structure."

- (2) The notice set forth in Paragraph (1) above shall be permanently installed in a visible location by the permit applicant adjacent to the data plate required by the Federal Act or in the furnace closet on manufactured structures.

CHAPTER 8 Property Maintenance Code

Sec. 4-8-1. Legislative findings and purpose.

- (a) The City Council hereby finds and declares that there are many residential and nonresidential buildings and structures within the City, or parts thereof, which by reason of their structure, equipment, maintenance, occupancy, or use, affect or are likely to adversely affect public health, safety and welfare. To correct and prevent the existence of such adverse conditions and to achieve and maintain such levels of environmental quality as will protect and promote public health, safety and welfare, the establishment of minimum property maintenance standards is necessary.
- (b) The purpose of this Chapter is to protect public health, safety and welfare from the adverse effects of buildings, structures and parts thereof that are not properly maintained and the problems that poor maintenance of buildings and structures cause, including but not limited to unsafe buildings and structures, accidents, injuries, disease, poor sanitation and fire hazards.
- (c) The International Property Maintenance Code provides reasonable and nationally recognized standards for maintenance of residential and nonresidential buildings and structures and properly addresses the problems associated with a failure to maintain buildings and structures in a way that is suitable for the City of Pueblo.
- (d) The City Council finds and declares that property maintenance problems related to residential properties tend to be worst at properties that are rented, rather than owner-occupied. This appears to follow from renters' lack of pride of ownership and the short-term outlook of renters, as well as landlords' desire to derive income and keep maintenance expenses low. Therefore, the I.P.M.C. should first be applied to those properties before considering whether it should be applied to all residential properties.
- (e) The City Council finds and declares that property maintenance problems related to commercial properties tend to be more destructive of neighborhood property values when the commercial property is open to the public, or had been open to the public at anytime within the immediately preceding 24 months, and consists of five thousand (5,000) aggregate square feet or more of enclosed space. Therefore, the I.P.M.C. should first be applied to those properties before considering whether it should be applied to all commercial property.
