REPORT PREPARED BY:

Suffolk County Red Light Safety Program, **SCTPVA**

ISSUED:

JUNE 17, 2019

INTRODUCTION & PURPOSE OF THIS REPORT

Suffolk County's Red Light Safety Program was authorized by New York State Vehicle & Traffic Law § 1111-b (enacted in May of 2009) and Suffolk County Local Law 20-2009 (went into effect June 30, 2009). These authorizing legislations permitted the installation of red light cameras in Suffolk County.

The New York State legislation, which authorized the installation of red light cameras, requires the County to issue an annual report which provides detailed information regarding program operations. This is Suffolk County's ninth annual report, which will reflect program data for the **2018** calendar year.

As required by State legislation, this report will address the following:

- I. A description of the locations where traffic-control signal photo violation-monitoring systems were used;
- II. The aggregate number, type and severity of accidents reported at intersections where a traffic-control signal photo violation-monitoring system is used for the year preceding the installation of such system, to the extent the information is maintained by the Department of Motor Vehicles of this state;

The aggregate number, type and severity of accidents reported at intersections where a traffic-control signal photo violation-monitoring system is used, to the extent the information is maintained by the Department of Motor Vehicles of this state;

- III. The number of violations recorded at each intersection where a traffic-control signal photo violation-monitoring system is used and in the aggregate on a daily, weekly and monthly basis;
The total number of notices of liability issued for violations recorded by such systems;
- IV. The number of fines and total amount of fines paid after first notice of liability;
- V. The number of violations adjudicated and results of such adjudications including breakdown of dispositions made for violations recorded by such systems and quality of the adjudication process and its results;
- VI. The total amount of revenue realized by such county; and expenses incurred by such county in connection with the program.

I. RED LIGHT CAMERA LOCATIONS

The Suffolk County Department of Public Works (DPW) researched and selected intersections for automated enforcement based upon a variety of factors, including the analysis of crash data available from the New York State Department of Transportation (DOT) and consideration of where red light cameras would yield the highest safety results. As in the previous years, there were 216 camera systems in 2018. There were 4 sites down due to construction which are annotated on the chart with an asterisk (*)

Following is a listing of the red light camera intersections grouped by hamlet.

II. ACCIDENT DATA

2018 RED-LIGHT CAMERA COLLISION ANALYSIS SUMMARY

Introduction

The Red-Light Camera Program was initiated in 2010 with additional cameras added to the program in 2011, 2013 and 2014. At the time of this report there are a total of 100 active intersections throughout Suffolk County.

The collision data included in this report depicts the total number of crashes, the type of the crashes, and the severity of the reported crashes at these 100 active intersections. The base crash data for this analysis is for the 3-year period (2007 to 2009) prior to the Red-Light Camera Program. The crash data received from NYSDOT for the current period of January 1, 2018 through December 31, 2018 and required by NYS VTL 1111-b, included reports from the NYSDMV Accident Location Information System (ALIS) and Accident Verbal Description Reports (VDR). This data was then analyzed and compared to base crash data.

Methodology

The data provided by NYSDOT in May of 2019 is the most current crash data available from the NYSDMV for the period of January 1, 2018 through December 31, 2018.

A Percent Reduction Analysis table for 2018 was prepared which depicts total number of crashes and **yearly average** at each of the 100-active red-light camera locations for the pre-construction 3-year period prior to the Red-Light Camera Program (2007 to 2009) and from the date of camera activation until December 31, 2018. The post construction data has a different date range and time period for each location as the operational time for each camera varies. Both the pre-construction and post construction data has been annualized to allow for a direct comparison. Only total crashes, right angle crashes, rear end crashes and crashes involving injuries were compared as these are the types of crashes that are most relevant to Red Light Camera programs. An overall percent reduction was calculated for each of the crash types noted above.

It should also be noted that several intersections were decommissioned/relocated during 2013 and those locations are not included in this report.

Findings

Based on the data and collisions trends depicted in the Yearly Summary Table (on following pages), overall number of collisions has increased at red light camera intersections by 0.7%, right angle collisions have decreased by 24.0%, while rear end collisions have increased by 33.9%. The data also reflects an overall decrease in collisions involving injury by 7.1%.

The table below provides additional pertinent information regarding traffic crashes countywide as compared to traffic crashes at red light camera intersections. Crashes countywide have increased, however, crashes at Red Light Camera intersections have increased at a lesser rate since the implementation of the Red Light Camera program. In addition, crashes involving injury have decreased countywide, however at Red Light Camera intersections crashes involving injury have decreased at a higher rate. This data was provided by the Suffolk County Police Department using the NYS Traffic Safety Statistical Repository. <https://www.itsmr.org/TSSR/>

	2009 Year Prior to Implementation of RLC Program	2014	2015	2016	2017	2018 Preliminary	2009 Compared to 2017	2009 Compared to 2018

In summary, the total number of citations recorded and issued in 2018 are shown in the following table. Also shown is the average of the total program's issuance by day, week and month:

	Total	Average Per Day	Average Per Week	Average Per Month
2018 Recorded	5,438,047	14,899	104,578	453,171
2018 Issued	362,879	994	6,978	30,240

IV. RED LIGHT CAMERA FINES PAID

A total of 311,989 fines were paid in 2018. This includes payment of fines collected for citations issued in prior years. At \$50 for each fine, a total of \$15,599,450 in gross fine revenues was generated.

V. RED LIGHT CAMERA ADJUDICATION RESULTS

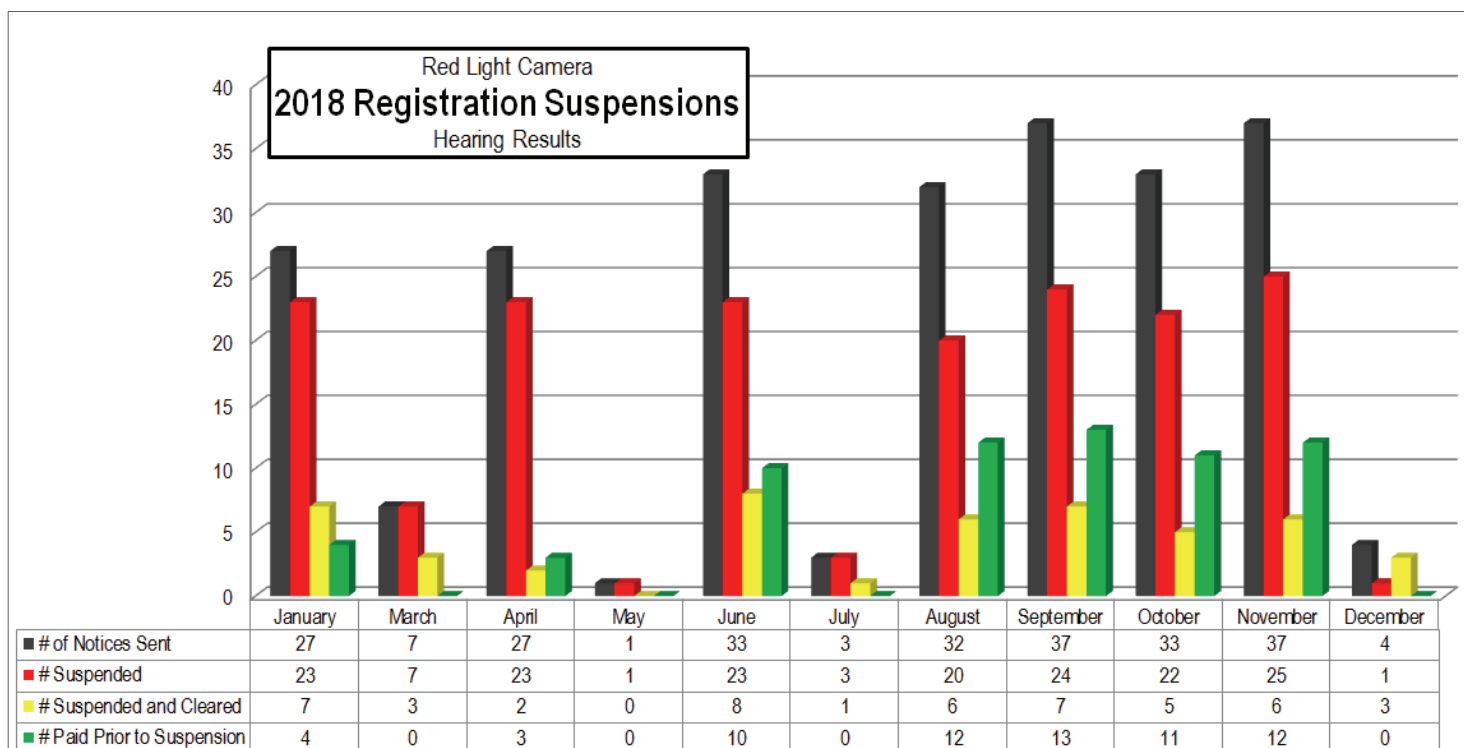

In 2018, there were 47 Hearing Dates scheduled. On average, 72 citations were scheduled for the morning session. There was a total of 3,399 motorists scheduled for trial. They were adjudicated by a Judicial Hearing Officer (JHO). On average, 29% of the defendants scheduled on a given date appear for their trial, with a total of 986 cases being heard in 2018. Following is a summary of the results of Red Light cases adjudicated:

SUFFOLK COUNTY RED LIGHT SAFETY PROGRAM CASES ADJUDICATED - 2018								
	# Defendants Scheduled	Total Trials Held	Found Guilty at Trial	Dismissed	Pled Guilty	Adjourned	Fine Paid on or before Court Date	Default Judgments
TOTAL	3,399	986	501	134	351	86	1,410	911
% of TOTAL		29%	51%	14%	36%	3%	41%	27%

The outcome of hearings has been overwhelmingly in favor of the County, indicating that the citations are being issued fairly and properly. In 2018, there was a total of 362,879 citations issued. **0.94%** of individuals receiving red light citations scheduled court hearings and **0.27%** resulted in an actual trial. **41%** of those scheduled for court hearings pay their fine prior to court. A very small percentage of defendants (**0.04%**) have had their cases dismissed on the day of trial.

Suffolk County Traffic and Parking Violations Agency (SCTPVA) has provided an extraordinarily high level of access for those wishing to protest their red light camera citations. Multiple requests to reschedule hearings are considered, assuring that everyone who wants to be heard in Court has the opportunity to do so.

In an effort to collect unpaid red light camera citations, SCTPVA continued to schedule registration suspension hearings in 2018. There were a total of 241 motorist scheduled with 8,896 unpaid citations totaling \$1,058,635.00. This collection effort allowed the County to recover \$455,279 in debt owed. Following is a summary of the collection program:

VI. RED LIGHT CAMERA REVENUES & EXPENDITURES

Suffolk County's Red Light Safety Program was structured so that County taxpayers would assume no financial risk to operate the program. All fines and fees generated by the issuance of citations are deposited directly into a Suffolk County Comptroller's account. The vendor provides a monthly invoice to the County based on the number of citations paid and contractual requirements, which are funded by the revenues received.

In 2018, a total of \$27,609,217 in gross revenue was generated by the Red Light Camera Program. This includes fines, late fees, administrative fees, credit card convenience fees, default interest and return check fees. The County's red light camera vendor was paid a total of \$ 8,205,841.49 for red light program related activities.
